

DIY - Do It Yourself

Do you, as a pilot, perform maintenance on your aircraft? If so, are you aware of just what you can and can't do? This class is a review of the requirements in FAR Part 91. We will cover exactly what maintenance you can perform, whether you need oversight, and how to document it correctly. Our speaker, Scott Royal, is an aviation maintenance technician with Inspection Authorization, a FAA Safety Team Representative, and an aircraft owner. Come learn from a pro. Click the link below and register TODAY.

Directions: I-95 to Exit 109. East on Rte 202. At 4th light go left to Airport. Follow signs.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
